

## **Excel Life Sciences Clinical Research Professionals**

The ELS Clinical Operations team consists of over 100 full time employees. This team has worked on over 350 clinical trials and provides our clients with 24/7 client support. ELS has historically delivered the following metrics:

- 100% approval of all protocols
- 3-5 months site approval timeline
- 92% patient retention
- Visit compliance (within window) of 98%
- No Change Orders (unless scope of work is changed by sponsor)
- 98% sponsor approval of recommended sites

## **Quick Facts**

- National mental health survey conducted in 2016 reports that about 11% of adults are suffering from a mental condition implicating 150 million Indians who need active intervention.
- As per WHO report, India has the highest rate of depression, schizophrenia and bipolar disorder.
- In India, the prevalence of mental disorders in younger population is about 7% which includes disorders like autism spectrum disorder, psychotic disorder, phobic anxiety disorder, agoraphobia, and recurrent depressive disorder.

## **ELS Neuropsychiatry Experience**

INDICATION	PHASE
Schizophrenia	III
Schizophrenia	IIB
Schizophrenia	II
Depression	III

Excel Life Sciences has positioned itself to meet our sponsor's specific needs. Our unique processes carried out by the ELS CRC at each site ensures that your clinical trial is conducted according to ICH-GCP guidelines. Our Clinical Operations team is connected to the leading hospitals in India and contracting with ELS will give your study access to various Neuropsychiatry sites and investigators.

**Global Network:** Excel Lifesciences is an Indian subsidiary of US based corporation with offices in Chicago and Boston as well as over 22 operational locations across India. The ELS team brings a deep understanding of the Neuropsychiatry clinical research environment in India.
